SOLUTIONS SUMMARY

Company	Product	Product status	Page
Agricultural innovations			
AUGA tech	Sustainable agricultural technologies: • M1 - bio methane-powered tractor • E1 - multi-modal electric agricultural platform • Sustainable feeding technology	M1 - pilot. **E1** and sustainable feed production and feeding technology - prototype	5
GJ Magma	Sustainable and cost-effective regeneration of degraded soil	Pilot (first working versions of the product)	7
Nando	Biofertilizers	The products are fully developed. The company is a leader in the Baltic region	9
Construction and infrastructure			
Jūrės Medis	Sustainable construction technology and materials	Fully developed with extensive export experience	11
Lusety	Smart urban lighting ecosystem	Actively operating and ready to scale abroad	13
Modulina	Green building solutions	Fully developed and scalable pre-fabricated construction panels	15
Provectus Redivivus	Sound insulation solutions from recycled materials	Fully developed and applicable to various buildings	17
VMGcorp	Adapted engineered wood products and modular systems for each project	Ongoing pilot programs for panel renovation and modular construction	19
Energy technologies			
LightMirror	Sunlight reflective panels for energy economy	Piloted in Europe	21
Solet	Solar panels for home and business, electric vehicle charging systems	Customizable solutions and a long experience in the field	23
SoliTek	Integrated solar panels for railway/highway noise barriers	The largest solar energy solution producer in Northern Europe, piloting solar-integrated projects	25
Recycling/reusing			
Fivrec	Green direct recycling process for lithium-ion batteries and other critical raw materials	Pilot (first working versions of the product)	27

SOLUTIONS SUMMARY

Company	Product	Product status	Page
OBDEleven	Vehicle diagnostics device	Fully developed device usable with over 12 well-known brands	29
Recar	A marketplace for used car parts	Fully developed customizable system	31
Sustainable governance and management			
Ecograntt	RecyClass audit and support services for plastic waste management	Recyclass are accredited and experienced experts in plastic recycling business	33
MC Baltics	Professional consulting services on sustainable mobility solutions	Extensive experience in over 40 countries	35
NRD Companies	E-government solutions and consultancy	Customizable advanced solutions	37
Environmental Project Management Agency	Professional consulting on environment related matters	Solid experience in the field worldwide	39
Water management			
ARGINTA	Municipal water management solutions	Over 130 water management projects in Lithuania and abroad already completed	41
AUGUST ir Ko	Wastewater treatment systems	Fully developed with solid experience in application	43
Traidenis	Tailored water treatment solutions	Fully developed, widely applicable and scalable solutions	45
Other			
Deep Scientific	Cost-effective electrochemical sensors	A fully developed collection of sensors for monitoring and purification of air, water and soil	47
Burbuliukas ir Co, Fresh Post	Healthy fast food and sustainable packaging	Fully developed and looking for franchise partners	49
Burbuliukas ir Co, Respo	Water ionizer	Pilot (first working versions of product)	51
